

JESSE BRISKA

FULL-STACK DEVELOPER | AI & AUTOMATION SPECIALIST

CONTACT

-  +2349033019841
-  jessebriska2@gmail.com
-  Abuja, Nigeria

PROFILE

Full-Stack Developer and Automation Specialist building web applications and automated workflows with Next.js, React, TypeScript, Node.js, n8n, APIs, Supabase, and PostgreSQL. Interested in AI-powered automation, integrations, and solving real-world problems with software.

EDUCATION

B.Sc. Mechanical Engineering

Name of school

University of Jos, Nigeria

2020 - 2025

SKILLS

TECHNICAL

- Frontend: HTML, CSS, JavaScript, TypeScript, React, Next.js
- Backend: Node.js, REST APIs, Webhooks, JSON
- Automation: n8n, AI/LLM APIs, Workflow Automation
- Database: PostgreSQL, Supabase, SQL
- Tools: Git, GitHub, Vercel, Postman

PROFESSIONAL

- Problem Solving
- Analytical Thinking
- Technical Troubleshooting
- Attention to Detail
- Communication
- Fast Learning
- Independent Work
- Team Collaboration
- Process Improvement

EXPERIENCE

FULL-STACK DEVELOPER & AUTOMATION PROJECTS

Independent Developer | 2025 – Present

- Build full-stack applications using Next.js, React, TypeScript, Node.js, Supabase and PostgreSQL.
- Develop API integrations and automated workflows using n8n, webhooks and external services.
- Design database-driven applications with authentication, validation and business logic.

CAREPLUS MEDICAL CENTRE — HEALTHCARE AUTOMATION

Independent Developer | 2026

- Built n8n + Supabase/PostgreSQL workflows for appointment notifications and SMS delivery tracking.
- Integrated Twilio APIs and webhooks to track notification status and automate patient communication.

DMDA SECURE VOTING PORTAL

Independent Developer | 2026

- Built a voting system using Next.js, Supabase and PostgreSQL with secure voter authentication and ballot processing.
- Implemented database functions and validation for voting sessions, ballots, candidates and results.
